BIENNIAL REPORT

OF THE

AUDITOR OF STATE

OF THE

STATE OF COLORADO

1925-1926

CHARLES DAVIS, *State Auditor*

To His Excellency,
CLARENCE J. MORLEY,
Governor of the State of Colorado.

Sir:

Complying with the provisions of law requiring reports from executive departments of the State Government, I have the honor to submit, herewith, the biennial report of the State Auditor's office for the period December 1st, 1924, to November 30th, 1926, inclusive.

The condition of the State's finances is good; total receipts for the biennial were $36,864,864.86; disbursements $36,258,725.54 showing excess of receipts over disbursements of $606,139.32. The general fund from which appropriations for the executive, legislative and judicial departments are provided is in splendid condition, in view of an over-appropriation of $935,575.01.

The total appropriations from this fund were $5,297,575.01; estimated revenue $4,362,000.00.

To provide for this over-appropriation it was necessary to secure the co-operation of all spending agencies which was done; thru this co-operation a saving of $364,697.67 was effected, leaving $4,932,877.34 for which warrants were issued to which must be added the interest paid on these warrants, in amount paid and estimated of $25,000.00 making a total of $4,957,877.34.

The Inheritance Tax and tax and fees from the Insurance department exceeded the estimate to such an extent as to enable us to pay the reduced appropriations in full and leave a surplus in the General Fund of $42,000. In view of what seemed a deficit of over three quarters of a million at the beginning of the biennial period this condition is especially gratifying.

FIRE LOSS FUND

Beginning 1926 there has been set up by the State Treasurer a Fire Loss Fund and $40,000 placed in the same in accordance with the statute providing

that this amount be placed by the State Treasurer in a fund to be known as the Fire Loss Fund and continue annually at the same rate till $250,000 has been set aside. From this fund the State Auditing Board may pay for fire losses to State property.

SHORTAGE IN STATE TREASURER'S OFFICE

A shortage was discovered in the State Treasurer's office in 1915, covering a period from 1901 to 1911 amounting to $41,186.50. Suits to recover were instituted by the Attorney General's office and continued by successors; judgments were secured and monies returned to the Treasurer at various times, until there remained at the beginning of this biennial period but $3,285.30 unsettled. Judgment for this amount was secured by Attorney General Boatright and together with costs $15.20. Interest $53.25, the amount of $3,353.75 was paid to the State Treasurer in July, 1925.

BONDING OF FISCAL EMPLOYES

Shortages were discovered in the accounts of an employe in the Stock Inspection Board and the State Oil Inspector's office. Prosecutions followed, were convicted and were given prison terms. They were not bonded, consequently the amount of shortage was not recovered. Immediate steps were taken to bond all employes handling money or likely to involve the state financially to the end that all such employes are now under bonds.

CAPITOL OFFICE BUILDING

It will be necessary for the incoming legislature to provide for the redemption of Office Building warrants outstanding.

On account of the total valuation of all State property failing to show the increase anticipated by the board of Capitol Managers, when the levy was made the .12 levy did not produce the revenue necessary to redeem all warrants issued. The amount issued against the office building fund is $1,494,394.84 of which $1,328,587.27 has been paid, leaving $165,787.57 outstanding November 30, 1926. There is still due from uncollected taxes on the last year's levy approximately $22,000.00 which leaves about $143,787.57 to be provided for.

DEPARTMENT OF BUILDING AND LOAN ASSOCIATIONS

The business of Building and Loan Associations is growing rapidly in this State. Resources having increased form $22,913,041.11 June 30, 1924, to $35,186,058.09 June 30, 1926.

It is impossible for the Deputy Inspector of Building and Loan Associations to properly care for the rapidly expanding business; it requires all his time to attend to office duties and meet the constant stream of callers seeking information of all character concerning Building and Loan. I recommend that he be given an assistant with adequate salary and expenses whose duty would be to examine all Building and Loan Associations at least once each year; this measure of protection is due the investing public and the associations as well. The salary

of the Deputy Inspector is not commensurate with his duties at present; the deputy inspector, Mr. Miller, is a very capable Building and Loan man and his services should be made more secure to the State thru more liberal compensation.

CONCLUSION

I desire to convey to all State officials and departments my sincere appreciation of their co-operation, so necessary to the successful handling of the State's business.

The measure of credit due this department for the manner in which the business has been handled, is due to the loyalty, fidelity, and efficiency of my official force and I take this occasion to say that no department head has been given truer and more constant devotion than the State Auditor in the last two years, without which, success is impossible.

Very respectfully yours,

CHARLES DAVIS,
Auditor of State.

Auditor of State.

Dear Sir:—

I have the honor to submit, herewith, the report of the department of the Public Examiner for the biennial period ending November 30th, 1926.

Heretofore this department has made complete audits each year on the offices of 378 County officials throughout the State but on account of the Governor's veto of the appropriation for this department it was necessary to dispense with the annual audit and depend upon the statements submitted to this office by the various officials for that part of the report relating to the Counties.

The yearly audit has been made on 110 State Institutions, Boards, Commissions or Appropriations. Including the receipts and disbursements the volume of business covered by this report amounts to $353,500,000.00 compared to $332,000,000.00 for the preceding two years.

The report shows the receipts and disbursements of the various offices in each County in the State for the years 1924-1925 with the 1923 totals submitted for comparative purposes. A segregation has been made of the disbursements by each County Treasurer showing the amounts and percentages remitted to the State Treasurer paid for County, Road, School, Irrigation and miscellaneous purposes. The miscellaneous column represents the payments for individual tax sale redemptions.

Under the schedules for the County Commissioners there is included a statement showing the financial condition of each County and with the schedules of all other County offices there is shown the amounts paid for salaries with the percentages of salaries compared to the earnings of each office.

Foot notes on some of the schedules for County offices show that no report was received from that official and estimates were made for the receipts and disbursements for the year 1925 so that the report could be closed up for publication. As many as six letters were written to some of the officials without results. Some of the District Judges even failed to give this office any assistance in getting reports from their Clerks.

The disbursements of all State activities have been segregated to show the amount and percentage for salaries, maintenance, equipment, lands, building and improvements and miscellaneous. The miscellaneous column represents items in which the State has no equity; such as "Athletic Fees" in Educational Institutions, or "Inmates Deposits" in Penal or Eleemosynary Institutions and remittances to Counties on apportionment by the Auditor of such items as Blind Benefit, Highway, Gasoline, Motor Vehicle License fees and payments made by the Compensation department of the Industrial Commission.

When the Governor vetoed the appropriation for this department he stated that the work could be performed by the State Treasurer. To show that he was either wrongly advised or entirely ignorant to the value of this department I quote one incident that occurred during the first six months of his term of office. "A report from one of the County Recorders on the collection of State

Taxes was laid on my desk and on comparing it with some of the previous years audits of this department I called the County Treasurer and found that he had charged 3% commission for the collection of the State taxes, which amounted to approximately $3,500.00 for six months collections.'' This was simply an error and was corrected at once but it would never have been caught without the assistance of this department. There may be other Counties who have done the same thing during the last two years and for this reason it will be necessary to make a three years check on some of the items during the next year if this department is to continue functioning properly.

With highest personal regards, I am,

Yours very truly,

J. M. WOOD, Public Examiner.
